#### **4. TRANSFER OF YOUR PERSONAL DATA OUTSIDE THE EUROPEAN UNION**

The personal data collected by the CMA is primarily processed within the European Union. However, certain third-party services may involve the transfer of your data outside the EU, particularly for website audience measurement.

Transfer to the United States of America: On July 10, 2023, the European Commission adopted a new adequacy decision regarding the United States. Through this decision, the Commission considers that the changes made by the United States to its national legislation now ensure an adequate level of protection for personal data transferred from the EU to organizations located in the United States when they comply with the “Data Privacy Framework.”

Transfers of personal data from the European Union to organizations on this list may therefore take place freely, without a specific framework in the form of “standard contractual clauses” or any other transfer instrument.

To measure our website’s traffic, we use Google Analytics, a service provided by Google Inc., 1600 Amphitheatre Parkway, Mountain View, CA 94043. Since Google Inc. is certified under the Data Privacy Framework, this transfer does not require any specific framework in the form of “standard contractual clauses” or any other transfer mechanism.
